**PLEASE TAKE NOTE:** I simply do not have the time to sit and edit all of the messages that were submitted. You will find that some of these messages will contain spelling and grammar issues. I did manage to edit a few, and I've made a message where I have. If I did edit your message, it was because it may have confused others, or it was a little inappropriate. Luckily, I didn't have to turn away any messages, so they all should be fine. They should not contain any profanity. Although, in the case that a message slipped passed me, and offends you... I apologise deeply and I hope you will contact me immediately so I can remove it.

Hi Sandra!

I hope you have a wonderful birthday filled with lots of great presents and a huge birthday cake (you should have one with three kinds of chocolate. Nothing beats that!) and all that, but mostly a birthday filled with all the love in the world. And not just love from family and friends, but also from all the wonderful fans you have all over the world. Starting with some love from little old me, all the way from The Netherlands. ;)

You're a beautiful person, Sandra! Inside and out. Although I'm not quite sure how I would know that since I don't know you, but... I just know that you're a pretty awesome person who deserves all these kind birthday wishes from all these kind people!

**Message from Clara**

Hey Sandra,

I first saw you in Grey's and then in Sideways. I adored you in both. I love Cristina... she's kind of scary in a way in another way other than just being Cristina, because she reminds me so much of myself - edgy, driven, vulnerable. You portray all of your characters so well, I can only watch and admire. You are definitely a master of your art. Happy birthday Sandra, have a brilliant one.
